**Paparangi Farm** offers free range hunting over private farmland and bush country in one of the best fallow deer hunting districts in New Zealand. Fallow deer are numerous, especially in the manuka scrub and along bush margins.

We provide a safe, private location especially suited to the mature hunter, those seeking meat for the table, or to those wanting to introduce younger family members and friends to the sport.

We offer weekend hunting packages that include accommodation provided in a self-contained cottage, or in bush cabins equipped with solar power, gas cooking facilities and CB radio. Hunters should expect to provide their own food and bedding.

Family groups and non-hunting companions are welcome.

A hunting guide can be available.
